- The expectations of us were clear and direct, with a schedule that was easy to follow and regular due dates. We got to work with real examples and models instead of only talking about theory, which was great.
- Great freedom when choosing project topics
- Very good prof. Very good explanation.

### 7 - Describe one or more ways this course can be improved.

Response Rate	3/4 (75%)

- Would have liked to build more models and work less with interpenetrating pre-built models
- Allow a bit more length for presentation, I was not sure if mine can be finished wiithin 15 mins and spoke too quickly.
- Stata part could be better if we can do face by face.
