2 - Explain why your learning was at this level.

Response Rate	5/6 (83.33%)

- Lectures were often just power point slides. However, this was meant to be a very interactive course, so I understand quarantine made that difficult.
- The material that was taught in the class was useful.
- We had to write and summarized papers about topics we covered during class.
- Sycronous lectures over Skype were difficult to pay attention to and stay engaged in. Shorter recoded bits would have been better.
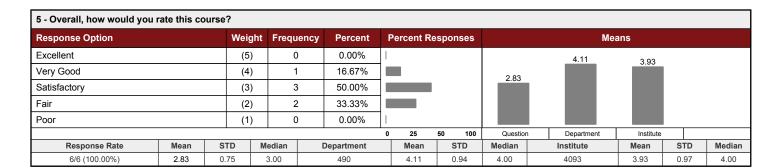

---

3 - The laboratory assignments and course material reinforced one another.

6 - Describe one or more strengths of this course.

Response Rate	3/6 (50%)

• Interesting topics and I feel as though I have grown a lot in my ability to write a research paper.

• It gives us an introduction into the economic stability and situation of developing countries - places that are usually overlooked.

• It opened my eyes to some of the hardships that developing countries have to face.

7 - Describe one or more ways this course can be improved.

Response Rate	4/6 (66.67%)

• Less power point slide lecturing (at least not every class for an hour).

• If the exams and quizzes were more centered around the slides and textbooks.

• I can't think of one.

• Give several examples so that student would understand more.
